PROFESSIONAL SUMMARY

Software engineer with professional web development experience since 2024 and a 2026 Computer Science degree. Experience includes production voice and SMS automation using TypeScript, Node.js and PostgreSQL, and responsive applications with React and Vue. Current work includes HubSpot and Clio integration, data validation and operational workflows. Use AI coding tools with automated tests, feature flags and human review to deliver reliable changes.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++, SQL, HTML, CSS

Backend: Node.js, Express, PostgreSQL, Prisma, Redis/Valkey, BullMQ, REST APIs, webhooks

Frontend: React, Vue.js, responsive design, UI/UX, Figma, WordPress

AI and voice: Claude Code, ChatGPT, LLM applications, agent orchestration, tool calling, Twilio, LiveKit, ElevenLabs, SIP/jambonz, A2P 10DLC

CRM and delivery: HubSpot, Clio, data mapping, workflow validation, Git, Vitest, Docker, Kubernetes, DigitalOcean, CI/CD, Turborepo, pnpm

PROFESSIONAL EXPERIENCE

CRM and Automation Specialist (HubSpot and Clio) | Oikonomakis Law

Sep 2026 - Present | Remote

- Configure and validate HubSpot-to-Clio integration workflows, including contact and matter mapping, staff assignments and synchronization status.
- Verify migrated matters and identifiers across both systems; investigate missing fields, duplicate risks and records routed for manual review.
- Configure restricted-access role drafts and matter permissions, correct lawyer and receptionist assignments, and support user access troubleshooting.
- Prepare operational reporting protocols and bilingual assignment-email templates; test workflow components and document dependencies before enabling automation.

Agentic AI Engineer | Orion AI Solutions

Jun 2026 - Sep 2026 | Remote (US)

- Owned reliability work in a large TypeScript monorepo, from diagnosis and implementation to automated tests and review-ready pull requests, using default-off feature flags.
- Built outbound voice and SMS workflows for dialing, AI booking and reminders across Twilio, SIP/jambonz, LiveKit and ElevenLabs, with timezone quiet hours and do-not-contact checks.
- Resolved stuck-session defects through session reconciliation and requeue logic; added instrumentation to verify behavior in production.
- Strengthened billing correctness with row-locked credit deduction, idempotency keys and audit records; enforced tenant isolation in API routes with automated tests.
- Coordinated AI coding agents using isolated Git worktrees and documented guardrails, with human review before merging or deployment.

Frontend Developer | Systemic Digital

May 2026 - Sep 2026 | Remote (US)

- Built and deployed responsive business and marketing websites, covering page layout, implementation and client delivery with AI-assisted development tools.

ADDITIONAL EXPERIENCE

Frontend Developer | Arcovia (Contract)

Jan 2024 - Apr 2025 | Remote (US)

- Built and optimized multi-page React and Vue applications, improving mobile responsiveness, navigation and user experience.
- Reduced bounce rate by 30% through performance and layout optimization; applied SEO improvements that increased organic traffic by 40%.

Frontend Web Developer | PA Advisor Group (Contract)

Aug 2024 - May 2025 | Remote

- Redesigned the corporate website and streamlined CMS workflows, reducing content update time by 50%.

Web Developer, then Social Media Manager | Tutify Educational Platform

Jul 2024 - Jun 2025 | Islamabad, Pakistan

- Rebuilt the website for a full rebrand, including wireframes, responsive layouts and interactive features; created landing pages with 25% higher conversion than previous pages.
- Managed Meta Ads campaigns, improving click-through rate by 35% and reducing cost per click by 20%.

INTERNSHIPS

Frontend Developer | Cognifyz Technologies | Aug 2024 - Sep 2024

Summer Intern | KaiRiz Cyber Technologies | Jun 2024 - Aug 2024

Web Development Intern | Internee.pk | Jun 2024 - Jul 2024

EDUCATION AND ACHIEVEMENTS

Bachelor of Computer Science | University of Engineering and Technology, Taxila

2022 - 2026

Award: Achieved 3rd position for the Final Year Project, AI-Based Personal Health Assistant.

Project supervisor: Dr. Syed Aun Irtaza.

Leadership: Executive, Media Team, Microsoft Learn Student Ambassadors.

CERTIFICATIONS

Frontend Development | Great Learning

Web Development and UI/UX | Digiskills.pk

ENGINEERING PRACTICES

Automated testing, debugging, multi-tenant access control, billing idempotency, feature flags, two-phase migrations, API integration, technical documentation and human-reviewed AI-assisted development.
